

Paradise for Little Angels

Policy: Child health

Aim: At Paradise for Little Angels the needs of each child are paramount in the decisions we make.

Rationale: Paradise for Little Angels wishes to make its children and adults safe from infection by spelling out clearly under what circumstances a child should be excluded. Exclusion is at the centre manager's discretion.

Procedures:

1. Any child requiring pain relief should not be in attendance at the centre. However exceptions will be made with regard to teething.
2. Being prescribed antibiotics does not automatically ensure your child is well enough to resume attendance.
3. A child prescribed antibiotics for any illness should not return until at least **24** hours after treatment has started.
4. Paradise for Little Angels reserves the right to request a medical certificate from a health professional before allowing a child to return from illness.

Adopted: 1st December 2008
